Dear Congressman Cuellar:

The Texas Association of Business commends you for putting statesmanship above politics by supporting the Emergency Economic Stabilization Act of 2008. This important legislation marked a pivotal step in restoring consumer and institutional confidence back to our national economy and global markets. You demonstrated courage by making the tough choices necessary to pass this important legislation affecting businesses, employees and families. TAB looks forward to working with state and federal leaders in our ongoing efforts to move our economy and business climate in the right direction.

Sincerely,
