

Funding and Language in FY22 Commerce-Justice-Science Funding Bill for Courtroom Space

Within the amounts provided, the recommendation provides \$50,000,000 to fund non-personnel requirements, which include increasing courtroom space required to support additional staff. As part of the recommended resource optimization strategy, the Committee directs EOIR to ensure costs associated with courtroom buildouts are included in its plan. Additionally, courtroom buildout costs should be more closely aligned with the schedule to onboard additional immigration judges and support personnel.
